2	product success role, was that an Eng role?	2	firsthand real firsthand experience whether it
3	MR. GAGE: Objection.	3	was hands-on or leadership that we would make I
4	A. The role that I was hired into was	4	was offered to start this role up and at the time
5	a I believe it was program management was	5	it was scoped to be a very small thing and an
6	the was the function.	6	experimental function.
7	Q. Did it have an engineering component?	7	Q. What was the title or descriptive
8	A. Yes.	8	title of that role?
9	Q. And what was that component?	9	A. Director, office of the CTO.
10	A. I was expected to be the subject	10	Q. Did that role include an engineering
11	matter expert on all Cloud technologies ranging	11	component?
12	from artificial intelligence, streaming analytics		A. Yes, the eventually. So part of
13	computation, storage, networking, and to provide	13	creating a team was actually was also creating
14	recommendations to the business on where we should		the the features of the the function itself.
15	invest our go-to market resources based on the	15	It was a new function at Google.
16	strength relative strengths or weaknesses of	16	Q. And did that function gain a name?
17	our products.	17	A. Yes.
18	Q. Did it have a product management	18	O. And what was the name?
19	component?	19	A. The Office of the CTO was the name of
20	A. I no.	20	the group and the function, we decided to utilize
21	Q. When you came into that role, what	21	a technical job family that had been used
22	was your title?	22	elsewhere in Google and put it in engineering for
23	A. Director, and I don't I don't know	23	the first time.
24	if it was customer success, product success.	24	Q. What do you mean, "put it in
25	It's I don't recall the exact title at the	25	engineering"?
	To be I don't recall the that the title de the	23	digitioning.

And so we took the features of a job that allowed for a blend of customer facing, customer impact-type work, plus engineering-type work and we put it in engineering, meaning it was in the engineering hierarchy which allow the members of the team to participate in the larger engineering organization whether that was, you in, you know, developing or in more engineering-like reviews. Q. Was the technical job family you you talked about, was that technical solutions consultant? A. Yes.
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21	time. Q. Do you recall what your level was? A. L 8. Q. Do you recall what job ladder that was in? A. Program management. Q. When was your start date? A. It was the end of March, '2015 approximately. Q. And how long were you in that role? A. It was roughly a year. Q. And where did you go next? A. My next role was starting the office of the CTO. Q. And how did it come to be that you made a move into the office of the CTO? A. I was asked to formulate because of my background in enterprise technology both in startups and in large enterprises, I was asked to provide thoughts and opinions to leadership around.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	- WILL GRANNIS - A. Our job families can exist. So the job family that was used for the office of the CTO had certain elements that we wanted to bring across and we knew that engineering, the core of the team would be critical to have engineering skills. And so we took the features of a job that allowed for a blend of customer facing, customer impact-type work, plus engineering-type work and we put it in engineering, meaning it was in the engineering hierarchy which allow the members of the team to participate in the larger engineering organization whether that was, you in, you know, developing or in more engineering-like reviews. Q. Was the technical job family you you talked about, was that technical solutions consultant? A. Yes. Q. And so there were technical solutions
2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22	time. Q. Do you recall what your level was? A. L 8. Q. Do you recall what job ladder that was in? A. Program management. Q. When was your start date? A. It was the end of March, '2015 approximately. Q. And how long were you in that role? A. It was roughly a year. Q. And where did you go next? A. My next role was starting the office of the CTO. Q. And how did it come to be that you made a move into the office of the CTO? A. I was asked to formulate because of my background in enterprise technology both in startups and in large enterprises, I was asked to provide thoughts and opinions to leadership around building such a function.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 11 21 22	- WILL GRANNIS - A. Our job families can exist. So the job family that was used for the office of the CTO had certain elements that we wanted to bring across and we knew that engineering, the core of the team would be critical to have engineering skills. And so we took the features of a job that allowed for a blend of customer facing, customer impact-type work, plus engineering-type work and we put it in engineering, meaning it was in the engineering hierarchy which allow the members of the team to participate in the larger engineering organization whether that was, you in, you know, developing or in more engineering-like reviews. Q. Was the technical job family you you talked about, was that technical solutions consultant? A. Yes. Q. And so there were technical solutions consultants outside of OCTO at the time you

1	Page 2 - WILL GRANNIS -	6 1	Page 28 - WILL GRANNIS -
2	as the title. The title is what we use like	2	A. Yes, I hold that role and then my
3	Director, Office of the CTO, but as a job family,	3	role is also combined with Brian's role.
4	that is that is what we adopted.	4	O. And what was Brian's title
5	Q. So the technical solutions consultant	5	A. He was
6	job family as it existed in OCTO was different	6	Q at the time you reported to him?
7	than as it existed elsewhere in Google Cloud; is	7	A. He held two titles throughout our
8	that right?	8	time; first he was head of product management when
9	A. Yes, there there was a heavier	9	I had first reported to him and then he became the
			CTO while I was reporting to him.
10	emphasis on engineering. Q. Did the function include a product	10	
12	management component?	12	
13	A. No.	13	descriptive title that you use for your position? A. Managing Director, Office of the CTO.
14	Q. At some point, did your job level	14	A. Managing Director, Office of the CTO. Q. Did you choose that title?
15		15	-
	change? A. Yes.		j j
16	A. Yes. O. When was that?	16 17	origin of how the title came up. O. Sure.
18	A. I don't recall exactly, but it was	18	Q. Sure. A. So managing director is a
19	roughly I think between two and three years of my	19	
20	time in Google.	20	convention a pretty standard convention used for L 9 on the TSC in the TSC job family. So I
	•		•
21	~	21	don't I don't recall actually it being a
22	promotion?	22	conscious conversation between, you know, anyone.
23	A. Yes.	23	It was more of a with the promotion, the the
24	Q. Did your job role change at the time	24	job title came. It also reflects the nature of my
25	of the promotion?	25	role, which is the managing director of the the

And as her direct manager, what has been the frequency of your interactions with her? A. As her direct manager we've had

Page 30 Page 32 1 - WILL GRANNIS -1 - WILL GRANNIS detail, so it will probably help. OCTO, the job 2 did not report to me I was also someone that she 2 3 would come to for advice. 3 family as seen in the job description and in OCTO 4 And how frequently as the direct as we've described since the very beginning of the 5 manager did you have one-to-ones with her? CTO office, the role consists of three main we'll 6 The -- the normal schedule was every call them buckets of work. There's customer work, 7 two weeks unless it was interrupted by some type 7 there's influencing the platform and products, and 8 of vacation, time off, other circumstances; but 8 then there is the speaking, the evangelism part. 9 it's all of my direct reports and I, we have a 9 In order to create impact with the 10 one-to-one on a standing schedule. 10 customer OCTOs are expected to help materially 11 At -- at the beginning it was every advance the progress of the largest brands in the 11 12 week, then it went to every two weeks and then 12 world; and what I mean by that is, you know, come over time I found that many of my direct reports to Cloud, come to Google Cloud and succeed with 13 13 choose to go once a month, but generally speaking 14 14 Google Cloud. 15 it was very frequent. 15 The second pillar, the engineering 16 And were there times that you 16 pillars, are expected to take their knowledge from 17 interacted outside of your normally scheduled the corporate world and what they obtain at Google 17 and they're expected to show impact on the product 18 one-to-ones? 18 19 Α. 19 road map, and this can come in a variety of 20 And what would be the types of 20 fashions. Most often this means that they have 21 circumstances where you would interact outside of 21 championed a change that we need make to what 22 one-to-ones? 22 we're building that it is accepted by the 23 23 Α. As I recall, most of those engineering, production, leadership. 24 interactions were initiated by Ulku asking me a 24 And the third pillar is conveying the 25 question on a specific circumstance. 25 power of our technology to the outside world Page 31 Page 33 1 - WILL GRANNIS -1 - WILL GRANNIS -2 And in your interactions with her, and helping create a translation between our 3 have you found her to be professional? 3 technology and its possibilities in the context of 4 4 the day; and in this way Ulku for example spent 5 Have you found her to be most of her time explaining the power of Q. 6 knowledgeable with respect to her subject area? technology to financial services organizations and 7 MR. GAGE: Objection. regulators, organizations like that externally. 8 As documented in performance reviews, 8 So we'll come back to some of this. 9 there are three categories. You know, when you 9 With respect to the second bucket, say "knowledgeable," that requires a view across influencing the platform products and the 10 10 the three categories of the role. There's a engineering piece -- do I have that right, that's 11 11 the second bucket? 12 customer element of the role, there's an 12 13 engineering element of the role, and there's an 13 Α. Describe for me a little bit more 14 evangelism element of the role. 14 15 Ulku has demonstrated as -- you know, 15 about the engineering aspect of -- of the role, 16 as shown in her performance reviews she's 16 what it means to impact -- have an impact on the 17 demonstrated acumen and knowledge; significant 17 product road map. 18 knowledge in evangelism, knowledge of financial 18 Examples of impact can range from 19 services and customers, but impact knowledge on 19 conceiving of a design of a new product and 20 the engineering pillar has been less than the 20 ensuring that it's built. It can be spotting an average in OCTO. 21 21 opportunity to evolve something that we already 22 0. 22 have and make it better. And tell me what that means, "impact 23 knowledge." 23 And it -- I think it's critical to

24

point out that the idea itself is only a little

bit of the role, that the -- the full as, you

What that means is the sec -- the --

if I may describe the three in a little more

24

25

2	Q June 1st, correct?	2	take a five-minute just bathroom and water
3	A. Yes.	3	break and so let's come back at 12:40.
4	Q. Okay. So is this consistent with	4	MR. GAGE: All right.
5	your general recollection about when the TSC	5	THE VIDEOGRAPHER: Going off the
6	ladder was updated or revised to reflect how it	6	record at 12:34 p.m. Eastern.
7	operated in OCTO?	7	(Whereupon, there was a brief recess
8	A. Generally the TSC ladders been	8	in the proceedings.)
9	constantly evolving as all ladders do at Google.	9	THE VIDEOGRAPHER: We are back on the
10	All ladders are updated on a semi-frequent basis.	10	record at 12:42 p.m. Eastern.
11	Q. With respect to your prior testimony	11	Q. Okay. Mr. Grannis, can you look in
12	about when a revision of the ladder was made to	12	the Box at Exhibit 61. This document was
13	bring it more in alignment with how it operated in	13	previously marked as Exhibit 61 and has the Bates
14	OCTO, is this is this consistent with around	14	number GOOG-ROWE-00055477 through 479.
15	that time frame you mentioned before?	15	A. Okay, I see it.
16	A. Yes, it there was a constant we	16	Q. Do you recognize this document?
17	were constantly evolving the TSC ladders as well	17	A. Yes.
18	as SWE PM broadly speaking within Google.	18	O. And what is this?
19		19	~
	Q. I would like you now to take a look		A. This is a position description for the office of CTO technical director.
20	at the Box and you're going to be looking for Tab	20	
21	175.	21	Q. When and when you were referring
22	A. Okay, I've got it.	22	to the job description earlier, is this what you
23	Q. Actually, you know what, you can put	23	were referring to?
24	that one aside. We're not going to mark that one	24	MR. GAGE: Objection.
25	yet.	25	A. This is the external job description,

1	Page 4 - WILL GRANNIS -	6 1	Page 48 - WILL GRANNIS -
2	Q. And it's from August 28th of 2017,	2	Q. Sure. The context in which you've
3	correct?	3	reviewed that, is that in relationship to your
4	A. Yes.	4	role in OCTO?
5	O. And this is an e-mail that Melissa	5	A. Yes.
6	Lawrence had sent to some recipients. Are those	6	Q. Okay. Now, if we can go back to what
7	recipients people who you recognize as being	7	we marked as Exhibit 78 and that was Tab 43, do
8	technical directors within OCTO?	8	you have that document open again?
9	A. At the time they were, yes.	9	A. I have it.
10	Q. Okay, and this is with respect to	10	Q. Okay. So as of August 28, 2017 was
11	preparing for PERF, and does PERF refer to the	11	there a levelling quide specific for the TSC
12	performance review process?	12	ladder as it existed in OCTO?
13	A. Yes.	13	A. Not that I recall.
14	Q. And you see in Melissa's e-mail, she	14	Q. Okay. You can put that aside.
15	says "There is very little documented for L 8 plus		Now, in connection with hiring the
16	expectations at Google. For general levelling,	16	technical directors, were you were you provided
17	this is the best quide available for generic	17	with a levelling quide to assist you in that
18	engineering." Do you see that?	18	process?
19	A. Yes.	19	A. As a no.
20	Q. And do you know whether that was a	20	Q. Okay. I want you to look now at Tab
21	reference to the Eng level quide, the general Eng	21	175 and we're going to mark this as Exhibit 79 and
22	level quide?	22	it has the Bates number GOOG-ROWE-00019205 through
23	A. I I don't recall.	23	208.
24	Q. Do you recall whether the general	24	(Whereupon, Exhibit 79 was marked at
25	engineering levelling guide was something that you		this time.)

                                                                    experience, background, acumen across the core
10
                                                                    elements of the role, the role-related knowledge
                                                             10
11
                   So in order to be able to execute the
                                                                    as well as the -- the three other categories;
                                                             11
12
       job for Pillar 1 and for Pillar 3, a candidate
                                                             12
                                                                    Googliness, GCA, and leadership.
       would need a depth of experience in the industry
                                                                                 Did you consider anything beyond what
13
                                                             13
14
       that they would be targeting in Pillars 1 and
                                                             14
                                                                    you've just described?
15
       Pillars 3; is that a fair summary?
                                                             15
                                                                         A.
16
            Α.
                   Yes.
                                                             16
                                                                         0.
                                                                                And what did you do, if anything, to
17
                   So with respect to the hiring
                                                             17
                                                                    document your thought process with respect to
18
       process, at what point did you make a
                                                             18
19
       determination as to what level a particular
                                                             19
                                                                         Α.
                                                                                We used a system called GHire and all
20
       candidate should join Google in?
                                                             20
                                                                    of my notes and recommendations are in GHire.
21
                   MR. GAGE: Objection.
                                                             21
                                                                                Outside of GHire, did you do anything
22
                   To clarify, I didn't make level
                                                             22
                                                                    else to document your thought process?
            Α.
23
       determinations.
                                                             23
                                                                         Α.
                                                                                Not that I recall.
24
                                                                                And once you made a recommend-- well,
            Q.
                   Did you make leveling --
                                                             24
                                                                         Ο.
25
            Α.
                   I --
                                                             25
                                                                    let me back up. To whom were you making a
                                                  Page 59
                                                                                                               Page 61
                        - WILL GRANNIS -
1
                                                              1
                                                                                      - WILL GRANNIS -
 2
            Q.
                   I'll let you finish.
                                                                    recommendation?
 3
                   I -- I was just saying I don't make
                                                                                There are as I understand it two
 4
       level determinations, but as part of the process
                                                              4
                                                                    forms of review, hiring committee and then a final
 5
       my job was to ensure that they were -- they were
                                                                    review; and so I was making a recommendation that
                                                              5
 6
       qualified at the L 8 plus level, that -- their
                                                                    would pair with recruiting's recommendation for
 7
       demonstrated experience, you know, I gave a
                                                                    those two sets of reviews.
8
       recommendation along those lines.
                                                              8
                                                                                And who made the final decision with
9
                   Okay. So --
                                                                    respect to at what level a candidate would be
            Q.
                                                              9
10
            A.
                   We -- we call it a statement of
                                                             10
                                                                    hired?
                                                                                 I don't know if -- I didn't always
11
       support.
                                                             11
12
                   So assuming someone met the L 8 plus
                                                             12
                                                                    know. I didn't know. The review process is a
13
       qualifications, what was your role in deciding
                                                             13
                                                                    closed process. I didn't know who was in that
14
       whether they were -- or determining whether they
                                                             14
                                                                    meeting.
15
       would come in as an L 8, an L 9, or something
                                                             15
                                                                                Are you aware of any instances where
16
       else?
                                                             16
                                                                    you recommended someone to be hired as a Level 8
17
            A.
                   I didn't have a role in determining.
                                                             17
                                                                    and the ultimate determination was that they would
18
            0.
                   Did you make a recommendation?
                                                             18
                                                                    be hired as a Level 9?
19
            Α.
                                                             19
                                                                         Α.
                                                                                I don't recall.
                   Yes.
20
            0.
                   And at what stage did you make a
                                                             20
                                                                                Are you aware of any instances where
21
       recommendation?
                                                             21
                                                                    you recommended that someone be hired as a Level 9
22
                   Once all of the interviews were
                                                             22
                                                                    and instead they were hired as a Level 8?
            Α.
23
       complete.
                                                             23
                                                                                Sorry, I'm just thinking.
                                                                         Α.
24
                   And by that, do you mean all of the
                                                                         Q.
                                                                                Of course.
            Q.
                                                             24
25
                                                                                I -- I don't recall off the top of \ensuremath{\mathsf{m}} y
       interviews for a particular candidate or all of
                                                             25
```

	Page 62	Page 64
1	- WILL GRANNIS -	1 - WILL GRANNIS -
2	head.	2 but I could be mistaken.
3	Q. Are you do you recall any	3 Q. Well, my question is: Are you
4	circumstances where you were requir or you	4 including him in this group of the first five to
5	were asked to provide additional document	5 eight you hired; was he one of the first let's say
6	documentation or information supporting your	6 eight, up to eight; was he one of the first eight
7	recommendation?	7 you hired?
8	A. No, I only recall the statement of	8 MR. GAGE: Objection, asked and
9	support.	9 answered.
10	Q. Now, at the time you were hiring	10 Q. You can answer.
11	these individuals into the role it was early on in	11 A. I I don't know.
12	building out the function, correct?	12 Q. Okay.
13	A. Which individuals are you referring	13 A. I I would have to see the actual
14	to?	14 dates of hire to be able to verify and I don't
15	Q. The technical directors that you	15 have that in front of me.
16	hired in late 2016/early 2017.	16 Q. What about Ben Wilson; do you recall
17	A. Yes, that period of time was the	whether he was one of the first eight you hired?
18	beginning of the team, yup.	18 A. Again, we hired a lot of people in a
19	Q. And at that time you didn't have a	19 short period of time. I'd really need to see a
20	super strong sense of what distinguishes an 8 from	20 timing sequence.
21	a 9, correct?	Q. Okay. At the time though that you
22	MR. GAGE: Objection.	22 were hiring in in late 2016/early2017, you

2	MR. GAGE: Objection.	2	9 in SWE?
3	A. Somewhat, but that's also why we have	3	MR. GAGE: Objection. Someone in
4	job families that are more descriptive in terms of	4	particular?
5	requirements.	5	-
6	Q. I want to make sure I'm directing	6	MS. GREENE: No, I asked about the role.
7	you, give me one moment. Okay, let's go back and	7	MR. GAGE: Oh, you used the word
8	look at that. It's Exhibit 6.	8	"someone," that's why I I asked the
9		9	•
	A. Okay.		question.
10	MR. GAGE: Is this already there or	10	Q. The attributes of someone in that role.
12	MS. GREENE: It's there.	12	A. In the SWE manager role?
		13	
13	MR. GAGE: Exhibit 6, Adam Lief, this one?		Q. Correct, at a Level 8 or 9.
14		14	A. I think generally speaking, you know,
15	MS. GREENE: Yes.	15	we would expect to see things like this at those
16	A. I have it up.	16	levels.
17	Q. Okay. If we can look at the	17	Q. Okay. You can put that aside.
18	last Page 2, the entries for Level 8 and Level	18	A. Okay.
19	9, are there any entries there that you would say	19	Q. Do you know who Ben Wilson is?
20	do not apply to technical directors?	20	A. I do.
21	MR. GAGE: Objection.	21	Q. And he's also his full name is I
22	A. And was the question are there any	22	think Benjamin Wilson; is that right?
23	that don't explicitly apply?	23	A. Yes.
24	Q. That you would say well, this isn't	24	Q. Okay, and he is he someone also
25	relevant with respect to the TSC ladder or roles.	25	whom you hired into the technical director in

1	Page 122 - WILL GRANNIS -	1	Page 124 - WILL GRANNIS -
2	A. When he left OCTO he went into a	2	Q. Okay. If you want to look at Tab
3	probationary product management role, that's	3	73 oh, actually, don't look at it yet. I
4	correct.	4	apologize.
5	Q. PM stands for Product Management?	5	MS. GREENE: Ken, if you want to look
6	A. Yes.	6	at Tab 73.
7	O. So he had skills that were	7	MR. GAGE: You just have to speed up
8	transferable from TSC to PM?	8	the transmission to me, Cara, they're still
9	A. That's why he was put in a	9	slow in coming to me. I don't know why. And
10	probationary period, was to determine whether that	10	my son is not home from school yet, so I know
11	was true or not.	11	it's not the video games he plays that are
12	Q. And do you know the outcome of that?	12	eating up the bandwidth.
13	-	13	* *
			Okay 73, you said?
14	Q. Okay, and with respect to the	14	MS. GREENE: Yes.
15	engineering levelling guide that we looked at a	15	MR. GAGE: Go ahead.
16	bit ago with respect to Levels 8 and 9 in those	16	Q. Okay. If you can take a look at
17	four different categories for the PM manager role	17	this document, we're going to Bates stamp this as
18	as you observed it at Google, do these descriptors	18	Exhibit 88 Bates I'm sorry, we're going to
19	apply to that ladder?	19	mark it as Exhibit 88, Bates stamp
20	A. Generally, yes, but again as states	20	GOOG-ROWE-00059393 through 442.
21	in the doc it doesn't represent the specific	21	(Whereupon, Exhibit 88 was marked for
22	expectations for any job role including PM, SWE,	22	identification.)
23	or TSC.	23	Q. So if you look in the upper
24	Q. Right. This is an Engineering-Wide	24	right-hand corner of this first page and read that
25	Levelling Guide?	25	and tell me if it ref refreshes your
	Page 123		Page 12

1 2	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an	1 2	Page 12 - WILL GRANNIS - recollection about what level she was being
1 2 3	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job	1 2 3	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for.
1 2 3 4	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category	1 2 3 4	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes.
1 2 3 4 5	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs.	1 2 3 4 5	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your
1 2 3 4 5	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and	1 2 3 4 5	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall?
1 2 3 4 5 6 7	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels	1 2 3 4 5 6 7	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9.
1 2 3 4 5 6 7 8	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct?	1 2 3 4 5 6 7 8	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you
1 2 3 4 5 6 7 8 9	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes.	1 2 3 4 5 6 7 8	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level?
1 2 3 4 5 6 7 8 9	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when	1 2 3 4 5 6 7 8 9	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of
1 2 3 4 5 6 7 8 9 10	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well,	1 2 3 4 5 6 7 8 9 10	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of support as I do for all candidates we hire.
1 2 3 4 5 6 6 7 8 8 9 110 111 112	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct?	1 2 3 4 5 6 7 8 9 10 11 12	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of support as I do for all candidates we hire. Q. Okay, and looking at Ms. Walsh and
1 2 3 4 4 5 6 6 7 8 8 9 110 111 112 113	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct? A. Yes.	1 2 3 4 5 6 7 8 9 10 11 12 13	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of support as I do for all candidates we hire. Q. Okay, and looking at Ms. Walsh and her education, do you know whether a Master of
1 2 3 4 5 6 7 8 8 9 110 111 112 113 114	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct? A. Yes. Q. All right. Do you know a woman or	1 2 3 4 5 6 7 8 9 10 11 12 13	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of support as I do for all candidates we hire. Q. Okay, and looking at Ms. Walsh and her education, do you know whether a Master of Arts and/or a Bachelor of Arts are positions
1 2 3 4 5 6 7 8 9 9 110 111 112 113 114 115	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct? A. Yes. Q. All right. Do you know a woman or aware of a woman named Katia Walsh?	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. I submitted a statement of support as I do for all candidates we hire. Q. Okay, and looking at Ms. Walsh and her education, do you know whether a Master of Arts and/or a Bachelor of Arts are positions that are degrees that Google would consider relevant to the position for which you were hiring?
1 2 3 4 5 6 7 8 9 110 111 122 113 114 115 116 117 118	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct? A. Yes. Q. All right. Do you know a woman or aware of a woman named Katia Walsh? A. Yes. Q. And how are you aware of her? A. She was being considered for a role	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. L 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did. I submitted a statement of support as I do for all candidates we hire. Q. Okay, and looking at Ms. Walsh and her education, do you know whether a Master of Arts and/or a Bachelor of Arts are positions that are degrees that Google would consider relevant to the position for which you were hiring? MR. GAGE: Objection.
1 2 3 4 5 6 7 8 9 110 111 12 113 114 115 116 117 118 119	Page 123 - WILL GRANNIS - A. Yeah, this is yeah, there's an engineering category of jobs and then the job families, so this is for an engineering category of jobs. Q. So this is the the broader set and then an individual ladder may have its own levels defined as well, correct? A. Yes. Q. And so earlier we looked at this when we discussed the TSC ladder itself was well, correct? A. Yes. Q. All right. Do you know a woman or aware of a woman named Katia Walsh? A. Yes. Q. And how are you aware of her? A. She was being considered for a role in OCTO.	1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19	Page 12 - WILL GRANNIS - recollection about what level she was being proposed for. A. Yes. Q. Okay, and how does it refresh your recollection; what do you recall? A. Oh, okay. I 9. Q. Okay, and do you recall whether you made a recommendation with respect to her level? A. I did.                    I -- I mean, I don't remember every
                                                            13
                                                                        Α.
                                                                               Okay.
                                                                               Do you see where you say "PLs; DR."
14
       chart I've been sent, but it looks like it was
                                                            14
                                                                        Q.
15
       sent to me from Katia. It appears --
                                                            15
                                                                        A.
16
                   MR. GAGE: Objection.
                                                            16
                                                                        Ο.
                                                                                What is that?
17
           A.
                   It appears from the e-mail it's been
                                                            17
                                                                                It's an abbreviation in computer
18
       appended into a note she sent to me.
                                                            18
                                                                   science. We use it to say too long, didn't read.
                                                            19
                                                                   It's like a summary statement.
                                                            20
                                                                        Q.
                                                                               And what was too long that you didn't
                                                            21
                                                                   read?
                                                            22
                                                                               Yeah, in -- in case people don't want
                                                            23
                                                                   to read the entire thing. That's kind of the
                                                                   summary of it.
                                                            24
                                                            25
                                                                               Got it. And your summary, is that it
                                                                        Q.

       themselves, " signed one. At the time you made
                                                             8
                                                                        Α.
9
       that statement, was that a true statement?
                                                             9
                                                                        Q.
                                                                                Do you agree that that was not
10
           Α.
                                                            10
                                                                   Googley of her?
                   Okay, and then with respect to the
                                                                                Yeah, -- I don't know that I -- I
11
                                                            11
       next paragraph you write, "This is also the Number
                                                                   don't know that I'd frame it as Googlely or not
12
                                                            12
13
       1 area where women ask for my advice/mentoring
                                                            13
                                                                   because we have a pretty strict rubric for
                                                                   Googlely or a pretty defined rubric that we went
14
       respectfully fighting for what they think is fair
                                                            14
15
       comp." Was that also a true statement at the time
                                                            15
                                                                   over earlier, but I think it exercised poor
16
       you made it?
                                                            16
                                                                   judgment.
                                                                        Q.
17
           A.
                                                            17
                                                                               Okay. If you can, go back to the
18
            0.
                   You can put that aside and I next
                                                            18
                                                                   first page now.
19
       would like you to look at Tab 79.
                                                            19
                                                                        Α.
                                                                                Okay.
